SUMMARY

Computer Science undergraduate with hands-on experience in Android application development using Kotlin and Jetpack Compose. Strong foundations in data structures, object-oriented programming, and MVVM architecture, with a focus on building clean, maintainable mobile applications.

EDUCATION

- Vellore Institute of Technology** **CGPA: 8.15/10.0**
Bachelor of Technology in Computer Science and Engineering *Aug 2022 — July 2026*
Relevant Courses: Data Structures and Algorithms, Operating Systems, Databases, Computer Networks, Software Engineering, Artificial Intelligence, Machine Learning

TECHNICAL SKILLS

- Programming Languages:** Java, Kotlin, C++, Python, SQL | Object-Oriented Programming, Data Structures, Algorithms
- Android Development:** Android SDK, Jetpack Compose, MVVM Architecture, ViewModel, StateFlow, Navigation Component
- Backend & Distributed Systems:** Spring Boot, RESTful APIs, Spring Data JPA, Hibernate, Microservices
- Database & Tools:** MySQL, PostgreSQL, Git, Docker, Gradle, Maven, IntelliJ IDEA, Android Studio, Postman
- Core Competencies:** Problem Solving, Complexity Analysis, Clean Architecture, Modular Code Design, Agile/Scrum

PROJECTS

Expense Tracker Application | Kotlin, Jetpack Compose, MVVM

- Built a multi-screen Android application to track daily expenses by category, supporting expense creation, summary view, and detailed breakdowns using Jetpack Compose.
- Implemented MVVM architecture with ViewModel and StateFlow to manage UI state and ensure lifecycle-safe data handling across screens.
- Integrated Navigation Compose with proper back-stack handling, enabling smooth transitions between category selection, add-expense, summary, and detail screens.

Food Delivery Application | Kotlin, Jetpack Compose, Navigation

- Developed a modular food delivery Android app featuring restaurant listing, menu browsing, cart management, and checkout flow using Jetpack Compose.
- Designed a shared CartViewModel to maintain a single source of truth for cart state across multiple screens, improving data consistency and user experience.
- Applied clean separation of concerns with model, viewmodel, and UI layers, making the application easier to debug, extend, and maintain.

EXPERIENCE

- Open Source Contributor** — Apache **June 2025 – Present**
Contributed to Apache repositories by resolving GitHub issues and submitting pull requests that fixed bugs and improved code quality in distributed components. Collaborated with 3–5 maintainers per feature via code reviews and design discussions, increasing test coverage for touched modules by an estimated 15%.

ACHIEVEMENTS

- Solved 500+ data structures and algorithms problems on LeetCode with a 200+ day streak in 2025, strengthening problem-solving speed and improving average acceptance rate across problems.

CERTIFICATIONS

- Oracle Certified Foundations Associate, Java** **Exam 1Z0-811 — Apr 2025**
- Oracle Certified Professional: Java SE 17 Developer** **Exam 1Z0-829 — Aug 2025**

VOLUNTEER EXPERIENCE

- Health-O-Tech Club, VIT Bhopal** — Content Team Member **Aug 2022 — Apr 2023**
Collaborated on content creation for club events, newsletters, and social media to promote health-tech initiatives on campus.
- Telugu Club, VIT Bhopal** — Event Team Member **Aug 2023 — Mar 2024**
Coordinated cultural events and performances, managing logistics and team coordination.

ADDITIONAL INFORMATION

- Languages:** Telugu (Native), Marathi, Hindi, Kannada, English
